

Play Along Excellence Serie No. 1

Akkoordenschema's met audio bestanden

Play Along Excellence Serie

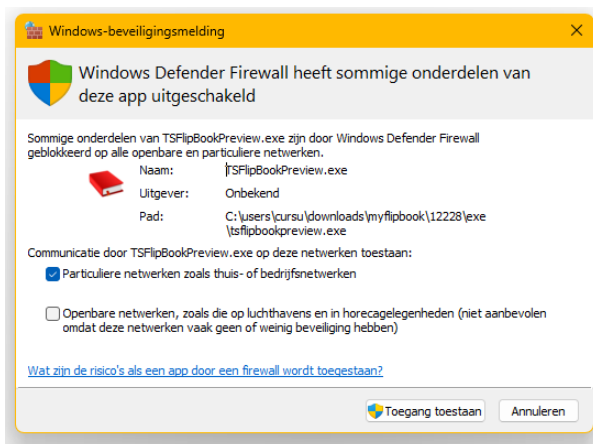

De **Play Along Excellence Serie** van **GuitarJan.com** is een concept, waarbij je bekende bestaande songs in een zo eenvoudig mogelijke akkoordzetting krijgt aangeboden, samen met een audiofile van de muziek. Het geheel is verpakt in een standalone Windows app. De app werkt als een soort bladerboek, waarbij we voor iedere song getracht hebben, lieder tekst en akkoorden op twee tegenover elkaar liggende pagina's te positioneren, da's gemakkelijk als je vanaf het beeldscherm speelt.

Met behulp van een handige inhoudsopgave kun je snel naar de gewenste song navigeren, aan de rechterkant van het desbetreffende akkoordenschema vind je de audio-player. Soms bieden we extra lange (*extended*) songs aan, voor het geval je helemaal uit je dak wilt gaan, en nieuwe ideeën wilt creëren om het nummer te spelen, immers: "Jamming is King!". Ook hebben we soms een andere toonladder voor de akkoorden gebruikt, om het spelen gemakkelijker te maken. Je kunt de meegeleverde audiofile dan vooral gebruiken om het ritme en de akkoordenwisselingen op te pakken. De audiofile zal dan echter afwijkend klinken van wat je in het akkoordenschema ziet.

Een paar handigheidjes en tips voor het gebruik van de bladerboeken, en die betreffen vooral het menu. Het werkt allemaal erg eenvoudig en intuïtief.

De inhoudsopgave wordt opgeroepen door op het meest linkse symbool te klikken. De tekst kan worden vergroot met behulp van het vergrootglas-symbool, en de "full screen" wordt bereikt door op het meest rechtse symbool te klikken. Het bladeren door de applicatie gaat met behulp van de pijltjestoetsen die je links en rechts van de tekst ziet.

Afhankelijk van de instellingen van je computersysteem, en met name van je firewall en virusprotectie, kun je een Windows melding krijgen zoals je hiernaast ziet. Je kunt daarbij op rustig op "Toegang toegestaan" klikken. De applicatie is absoluut veilig te gebruiken op je systeem.

Versterkerinstellingen

We begrijpen dat het bijzonder interessant is, om zoveel mogelijk effecten uit je gitaar te persen, maar je zult merken dat dit het meezingen van de songs tamelijk lastig maakt, tenzij je een microfoon gebruikt. We geven je van een paar programma's enkele instellingen die het goed doen met een elektrische gitaar, waarbij je de elektrische gitaar

min of meer als een akoestische gitaar laat klinken. De instellingen zijn getest met een Gretsch G5422 Electromatic Classic Hollowbody.

Presetkeuzes voor **BOSS Tone Studio** (2022), in combinatie met een **BOSS GT-1000 Core** multiprocessor. Indien er een optie onder de CTL-1 knop van de multiprocessor zit (de meest rechtse voetknop op het pedaal), hebben we die tevens in de tabel opgenomen.

Preset	Patch benaming	Optie onder CTL-1
P038	Rich Acoustic	Chorus On/Off
P053	Mellow Jazz Clean	Divider 1 Channel Select
P119	Crystal Clean *)	Divider 1 Channel Select
P126	For Nylon String	Chorus On/Off
P143	Clean <> Lead Vari	Divider 1 Channel Select
P186	Soulful Clean	Distortion 1 On/Off
P197	Electric Spanish	AIRD Preamp 1 Solo

*) = aanrader

Veel gitaristen gebruiken een puur softwarematige oplossing, bijvoorbeeld **Amplitude** van IK Multimedia, een gitaarversterker- en effectsimulatie software. Het hoeft geen betoog dat de ingebouwde virtuele effectpedalen als Reverb, Chorus, Delay, Flanger en dergelijke, met gepaste voorzichtigheid in een dergelijk programma ingezet moeten worden. Het is verstandig te kiezen voor een helder klinkend versterkmodel in Amplitude, om de akoestische simulatie voor elkaar te krijgen, zodat je in ieder geval zonder microfoon kunt meezingen.

Amplitude (2022) kent vier verschillende “soorten” virtuele versterkers: clean, crunch, high gain en bass. We concentreren ons op de versterktypes in de categorie “clean”. Een paar mooie akoestisch gesimuleerde weergaven met de Gretsch Electromat krijg je met de “clean”-versterkertypes:

Versterkermodel	Fabrikant
'57 Champ	Fender
'64 Vibroverb Custom	Fender
'65 Princeton	Fender
MK III American Clean	Orange
American Vintage T *)	Amplitude (custom)
Jazz Amp 120	Amplitude (custom)
Mazz 18 Jr	Dr. Z
Pro Junior	Fender

En vergeet niet de grote hoeveelheid eenvoudig toegankelijke muziektheorie, om je nog sneller en efficiënter bij je muzikale doelen te brengen.

Het materiaal voor de website van **GuitarJan.com** wordt onder redactie van **Jan van den Hogen** samengesteld. Jan is een amateur-gitarist die, zoals hij zelf aangeeft, niet al te best gitaar speelt, maar veel lol heeft in dat wat hij in ieder geval muzikaal voor het voetlicht weet te brengen. Hij is een pragmatisch denker, altijd zoekend naar de gemakkelijkste oplossingen en simpelste theoretische toepassingen binnen de complexe muziekliteratuur, zodat iedereen er van kan genieten.
